

# NORTH POINT RESIDENTIAL SCHOOL

“Maa Gita Debi Educational Society”

At NORTH POINT RESIDENTIAL SCHOOL, our pursuit of building an excellent private school is guided by our **core values**. We seek to hold ourselves and each of our staff members accountable for demonstrating them every day. After all, it is our core values that define our aspiration of how we interact together as teammates, as well as with the children, families and communities that we serve.

**Recognition.** We celebrate the success of our teammates. We spread the good news about the positive impact we are making in each other's lives and in the lives of children and families.

**Excellence.** We understand that we will not achieve the impact we seek without sustained dedication to delivering value. We must be disciplined in terms of becoming the best professionals, and the best people we can be.

**Service.** We are committed not only to serving the children and families in our school communities, but also to serving the needs of our teammates.

**Positivity.** We strive to inspire and draw out the best in each other. We persevere through sometimes difficult circumstances for the benefit of our schools.

**Ethics.** We do not compromise when it comes to our ethical standards. We hold each other accountable to doing things the right way.

**Collaboration.** We engage with our school communities—families and teammates alike—to define our shared vision for how each of our schools will evolve.

**Trust.** We work to prove that our actions are guided by the best interests of those we serve. We seek to build trust with all stakeholders through transparent, honest communication.

## Academic Excellence

Our paramount objective is to deliver exceptional education. We strive for excellence by partnering with the best educators and school operators in the country. Our schools are either accredited by top organizations or adhere to the highest rankings of their state's rating system. Our schools subscribe to research-based educational models such as Montessori, Reggio-Emilia, High Scope, Creative, and more. Our experienced and highly-qualified educators are well-trained and amply prepared to guide our students toward realizing their full academic potential.

## Safe & Attractive Learning Environments

We employ rigorous safety requirements and train our staff to make student safety their primary concern. Our facilities undergo thorough inspections to ensure the highest quality standards are met. Our properties are continuously monitored to keep them safe and well-maintained. This allows us to foster an environment where education is the number one priority in every classroom. Our secure campuses are managed by state-qualified professionals that are responsible for providing the ideal setting of academic enrichment, strongly encouraging students to "endeavour" to their full potential.

## Personal Enrichment & Development

We strive to offer our students a whole-life experience that goes beyond the classroom. Our schools offer compelling extracurricular activities that are both challenging and fun, and ample opportunities for students to develop their talents outside of the classroom. It is our belief that a quality education encompasses a broad spectrum of opportunities across multiple platforms.

## Community Inspired

A school's success is driven by its ability to earn the embrace of its community. It takes a special kind of school to cement its standing in the community and evoke the trust necessary to become a true partner in educating its youth. It is an integral part of our mission to bring communities together by providing them with the environment and tools necessary to improve their lives via excellence in education.

## Shared Expectations

NPRS has developed shared expectations to ensure that the learning, safety and rights of all are respected.

The expectations are intended to be positive in that they set out what is accepted and appropriate behaviours for our school community.

Our shared expectations are intended to support individual students and families that come to our community from a diversity of backgrounds and experiences.

## Sound Leadership

Top schools require strong leadership that can inspire their educators and students to perform at their highest levels. We support our school leaders by giving them the resources and professional development they require to be the best at their specific roles.

## Patriotism

Being patriotic towards the nation is everyone's responsibility, for we as a society, as a group, form the nation. There is no nation without people and vice-versa. Youth forms a major part of the nation and being patriotic towards it is their major responsibility.

To induce the feeling of patriotism, to make them know the value, it's something that has to take place from the roots of their childhood. A seed will grow to be a huge tree only if it's watered properly from the beginning.

The teachers here play a very significant role in moulding the childhood of the youth. If the teachers, from the beginning itself, teach the value of freedom to the students, the amount to sacrifice it took to live in the free nation today, no youth will fail to value the freedom of our country.

## Summary

Student learning is fostered in an environment that promotes success and is concerned with the welfare of every student. Students develop a positive attitude towards learning and a feeling of self-worth as they are encouraged to view themselves as being competent and responsible. It is their happiness, development and acceptance of themselves as people of worth, together with the acquisition of understandings and skills that will assist them to take part in their wider community.
